As many of you know, the Small Business Administration (SBA) emergency relief loan program (also known as the Paycheck Protection Program) will be available to small businesses starting on Friday, April 3. This is shaping up to be the fastest distribution of emergency funds that we have experienced and many of our clients and prospects are reaching out for guidance. Attached is a link to a recorded webinar HUB produced all HUB P&C and EB clients and prospects to raise awareness around the urgent actions they may want or need to take to secure funds under the program (which was approved as a part of the recently passed CARES Act).
